World Day of the Sick is a day set aside within the Catholic Church as a day when we pray in a special way for those who are living with an illness of any kind & for those who care for them.

On this day, we would like you to know that you are in our thoughts and our prayers, as we ask God to be with you on your journey.

This day also coincides with the Feast of Our Lady of Lourdes. For many around the world, Lourdes is a place of hope; a symbol of the promise of healing offered by Jesus. And so, with the same hope that brings so many pilgrims to Lourdes, we pray in solidarity with those who are sick and those who serve the sick around the world.
