

## **“Turning Indonesian” at St Pat’s Swansea**

As a culmination of our study in HSIE on Indonesia the students of Years 5 and 6 enjoyed a great cultural experience. All term they worked on aspects of life in Indonesia - customs, religion, culture, similarities and differences with Australia’s way of life.

The new hall provided the perfect venue to set up an authentic Indonesian Restaurant. The hall was transformed with posters made by the children, collections of creative pieces, pre-arranged seating arrangements and so much delicious food.

The President of the Parents & Friends Association, parents and teachers were also invited to join us as part of the Indonesian experience. It was a very positive bonding between all members of the school community.

The special day finished with a power-point presentation from the Sheppard sisters who had recently enjoyed a wonderful holiday in Bali. Also, the students who had been listening to Gamelan music during the luncheon, performed a musical extravaganza with creative arts teacher, Nicki Falconer.
